Contents of volume 96

Number 1

Regular articles

LAURA LAKUSTA and BARBARA LANDAU (*Johns Hopkins University*)
Starting at the end: the importance of goals in spatial language, 1–33

STEPHEN DARLING and TIM VALENTINE (*University of London*)
The categorical structure of semantic memory for famous people: a new approach using release from proactive interference, 35–65

STEPHEN R. MITROFF, BRIAN J. SCHOLL and KAREN WYNN (*Yale University*)
The relationship between object files and conscious perception, 67–92

Brief articles

JESSICA A. SOMMERVILLE (*University of Washington*), AMANDA L. WOODWARD (*The University of Chicago*) and AMY NEEDHAM (*Duke University*)
Action experience alters 3-month-old infants' perception of others' actions, B1–B11

JYRKI TUOMAINEN (*University of Turku*), TOBIAS S. ANDERSEN, KAISA TIIPPANA and MIKKO SAMS (*University of Technology*)
Audio–visual speech perception is special, B13–B22

FALK HUETTIG and GERRY T.M. ALTMANN (*University of York*)
Word meaning and the control of eye fixation: semantic competitor effects and the visual world paradigm, B23–B32

ANTONINO VALLESI (*SISSA-ISAS*), DANIELA MAPELLI (*University of Padua*), SAMI SCHIFF (*University of Verona*), PIERO AMODIO and CARLO UMILTÀ (*University of Padua*)
Horizontal and vertical Simon effect: different underlying mechanisms?, B33–B43

Number 2

Regular articles

H. CLARK BARRETT (*University of California*) and TANYA BEHNE (*Max Planck Institute for Evolutionary Anthropology*)
Children's understanding of death as the cessation of agency: a test using sleep versus death, 93–108

SUSAN GOLDIN-MEADOW (*University of Chicago*), SUSAN A. GELMAN (*University of Michigan*) and CAROLYN MYLANDER (*University of Chicago*)
Expressing generic concepts with and without a language model, 109–126

WILLIAM S. HORTON and RICHARD J. GERRIG (*State University of New York at Stony Brook*)
The impact of memory demands on audience design during language production, 127–142

PADRAIC MONAGHAN (*University of Warwick*), NICK CHATER (*University of Warwick*) and MORTEN H. CHRISTIANSEN (*Cornell University*)
The differential role of phonological and distributional cues in grammatical categorisation, 143–182

Brief articles

EVA BELKE (*Aston University*), MARC BRYSBAERT (*University of London*), ANTJE S. MEYER (*University of Birmingham*) and MANDY GHYSELINCK (*Ghent University*)
Age of acquisition effects in picture naming: evidence for a lexical-semantic competition hypothesis, B45–B54

MASSIMO TURATTO (*University of Trento*), VERONICA MAZZA and CARLO UMILTÀ (*University of Padova*)
Crossmodal object-based attention: Auditory objects affect visual processing, B55–B64

SIMONE DALLA BELLA (*University of Finance and Management in Warsaw*) and ISABELLE PERETZ (*University of Montreal*)
Differentiation of classical music requires little learning but rhythm, B65–B78

Number 3

Regular articles

DAVID H. RAKISON (*Carnegie Mellon University*)
Developing knowledge of objects' motion properties in infancy, 183–214

MANOS TSAKIRIS, PATRICK HAGGARD (*University College London*), NICOLAS FRANCK (*Université Claude Bernard*), NELLY MAINY and ANGELA SIRIGU (*Institut des Sciences Cognitives*)
A specific role for efferent information in self-recognition, 215–231

SUZANNE CURTIN (*University of Pittsburgh*), TOBEN H. MINTZ (*University of Southern California*) and MORTEN H. CHRISTIANSEN (*Cornell University*)
Stress changes the representational landscape: evidence from word segmentation, 233–262

VICTOR S. FERREIRA, L. ROBERT SLEVC and ERIN S. ROGERS (*University of California*)
How do speakers avoid ambiguous linguistic expressions?, 263–284

Brief articles

JEAN-FRANÇOIS DELVENNE (*Catholic University of Louvain*)
The capacity of visual short-term memory within and between hemifields, B79–B88

JANE ASHBY and CHARLES CLIFTON JR. (*University of Massachusetts at Amherst*)
The prosodic property of lexical stress affects eye movements during silent reading, B89–B100

ŞEYDA ÖZÇALıŞKAN and SUSAN GOLDIN-MEADOW (*University of Chicago*)
Gesture is at the cutting edge of early language development, B101–B113

Erratum

ANTONINO VALLESI, DANIELA MAPELLI, SAMI SCHIFF, PIERO AMODIO and CARLO UMILTA (*Universita di Padova*)
Erratum to 'Horizontal and vertical Simon effect: different underlying mechanisms?' [Cognition 96 (2005) B33–43], B115
